TAKEBACK PROGRAM CONSUMER CONTACTS

8a. What Web site address do you provide to consumers for information on your takeback program?

<http://csr.asus.com/english/takeback.htm>

8b. If provided, what telephone number do you provide to consumers for information on your takeback program? Our Recycler 866-479-4920

TAKEBACK PROGRAM INFORMATION

9. Please describe your takeback program.

ASUSTeK provides free recycling service for ASUS-brand products to both Residential and Institutional users. For other-brand products, users can also use our recycling service with charges. They can use the program as described below:

To Residential (B2C) Customers:

Residential customers visit the website, fill out the information on the web and submit the form. A shipping label is mailed to the customer within 5 business days. Once customer receives the label, he/she packages the ASUS product in a box, attaches the shipping label, and drops it off at the nearest FedEx or FedEx/Kinko's location.

To Institutional (B2B) Users:

The business could visit the website and/or contact our recycler Metech Recycling at 866-479-4920 to discuss arrangements. Metech Recycling can most effectively arrange their shipping and recycling needs.

10. What information do you provide to consumers on how and where to return covered electronic devices that are labeled with your name or brand label?

We provide basic information on how both Residential and Institutional Users can use our recycling service through our website, and at the same time provide Recycler's website which contains more detailed information, including the online submittal form and recycler's contact information.

11. How do you provide information to consumers on how and where to return covered electronic devices?

Through our ASUS CSR website - <http://csr.asus.com/english/takeback.htm>

Recycler's website - <http://www.motechrecycling.com/asus.htm>

TAKEBACK PROGRAM REPORT (include this information beginning with the first registration submitted after the implementation of the takeback program)

12. The total weight of the covered electronic devices received by the takeback program from consumers during the prior year:

0.0065 Tons

13. The processes and methods used to recycle or reuse the covered electronic devices received from consumers:

Our recycling partner, Metech, dismantles old ASUS products in a manual system at one of its half-dozen locations around the U.S. Products are disassembled into components, which are managed as follows: circuit boards are shipped to OECD smelters; plastics are shipped to plastics recyclers around the world; scrap metal, including hard drives, are sent to local scrap metal recovery operations for smelting and refining; batteries are shipped to battery recyclers for reclamation of metals. Any mercury-containing components such as lamps are sent to a retort facility in the U.S. for Hg reclamation. Polystyrene and cardboard from packaging are shipped to recyclers specializing in these materials. Metech disposes only of wood from old console TVs, which are not made by ASUS.

I, the undersigned registrant, swear and affirm, UNDER PENALTY OF LAW, that the statements contained herein are true and correct. I certify under penalty of law that the information contained on this form, to the best of my knowledge and belief, is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.
